# 14

THE WHOLE PSYCHOLOGY  
ON ONE PORTAL  
PSYJOURNALS.RU

MOSCOW, 2024

MSUPE publishing releases 14 scientific journals, which cover the main directions of psychology and related subject areas — education, cognitive sciences, data science. The oldest journals of MSUPE publishing house are of the same age as the University itself.

In 2007 with the purpose of development of scientific publishing activity, MSUPE arranged a thematic repositiorium — portal of psychological issues — PsyJournals.ru. Since 2015 all the archives and the newest publications — articles of the journals, books and collections — have free open access on PsyJournals.ru.

Demand of on-line PsyJournals.ru platform  
is about

**1,5** million of downloaded articles per year.

PsyJournals.ru is visited on the  
daily basis by more than

**5000** readers.

A multiformat model of publications is available on PsyJournals.ru portal due to audio- and video materials on **PsyJournals Live podcast**.

**MSUPE Online Publishing System (OPS)**, integrated in PsyJournals.ru is available for MSUPE authors of the scientific journals.

## Out of **14** journals of MSUPE publishing

**13**

journals are recommended by **the Higher Attestation Commission (HAC)** in the list of the leading scientific journals and editions for publishing scientific results of dissertation research

**7**

journals are included into **Scopus base** (according to 2024, 1 of the journals is included in **Q1 (CiteScore and SYK)** and 1 of the journals in **Q2 (SNIP)**)

**14**

**journals are included into the Russian Science Citation Index (RSCI)**

**7**

are included into **Web of Science base Core Collection** (Emerging Sources Citation Index, ESCI)

**8**

journals are included into **the Russian Science Citation Index (RSCI)** on Web of Science platform

**9**

are included into the **Core collection** of the Russian Science Research Index (RSCI)

Honored Professor of MSUPE, Head  
of Social Psychology Development  
Devison, MSUPE

The journal was created as a highly specialized publication on social psychology. Currently, the subject has been expanded to include such branches as political psychology and economic psychology. At the same time, the original works of domestic and foreign authors published in the journal, performed in these three interrelated areas, together create a powerful optics for the scientific study of a wide range of problems in the system "personality – group – society", primarily, modern society, which was conceived from the very beginning as the main intention of the journal, reflected in its title — "Social Psychology and Society".

The publication is addressed to research psychologists, practicing psychologists, teachers of psychology, as well as to all those who are interested in issues of social psychology.

EDITOR-in-CHIEF:  
Dergacheva, Irina V.,  
Doctor of Philology, Professor of the  
Department Linguodidactics and  
Intercultural Communication, MSUPE

DEPUTY EDITOR-in-CHIEF:  
Makhmudova Svetlana M.,  
Doctor of Philology,  
Professor of the Department  
Linguodidactics and intercultural  
communication, MSUPE

The mission of the journal "Language and Text" is to inform about scientific research on topical issues of humanitarian knowledge (philology, linguistics, linguodidactics, literary criticism, textology, etc.). The journal publishes the results of scientific research, archival materials, critics, reviews of scientific conferences and symposiums.

Particular attention is paid to the problems of intercultural communication in the journal. Each culture has its own language system, which allows its speakers to successfully communicate with each other using verbal means of communication. However, human speech is only one of the elements of the language, and therefore its functionality is much less than the entire language system as a whole. Language does not exist outside of the text, with which they form an important component of culture. Therefore, language and text are inseparable from each other, which symbolizes the name of the journal.

Not only Russian but also foreign scientists publish their works in the journal.

"Language and Text" is included in the bibliographic database of scientific publications of the RSCI.

The mission of the interdisciplinary electronic scientific and practical publication "Social Sciences and Childhood" is, first of all, to stimulate interdisciplinary research in the field of childhood and accumulate the most significant results regarding the development of modern children, accumulated in the social sciences. The journal is focused on the problems declared significant within the framework of the Decade of Childhood, and solves the problem of making scientific research the basis for making various decisions in the social policy of childhood at all levels. The journal "Social Sciences and Childhood" publishes original practice-oriented articles in the field of evidence-based social practices for children and their parents, specialists working with them. Special attention is paid to issues in the field of children's well-being, including subjective, their protection from abuse and violence. The journal not only publishes articles on these topics, but also initiates the development of these topics by organizing round tables, conferences and forums.

Cultural-Historical Psychology – **397** documents

Materials on the Education of People with Disabilities – **111** documents

## Opportunities for the Readers of MSUPE Electronic Library

## MSUPE QUALIFICATION PROGRAMMS FOR AUTHORS AND RESEARCHERS

### **ACADEMIC LETTER in the ACADEMIC COMMUNICATION of the PSYCHOLOGIST**

The course program introduces the social context of academic writing and equips students with the scientific communication competencies necessary to increase their publication activity and create individual promotion strategies (the “personal brand” of the author) in the international academic community

72 hours

### **DATA ANALYSIS of PSYCHOLOGICAL RESEARCH and PREPARATION for PUBLICATION**

The program is intended for psychologists interested in mastering modern methods of statistical processing of quantitative data obtained in psychological research

32 hours

### **MATHEMATICAL METHODS in PSYCHOLOGY and PEDAGOGY**

The program is practical in nature and is built on the research material from these areas. It does not involve memorizing mathematical formulas, but aims students at solving specific typical problems and mastering the applied statistical package SPSS. Learning in a digital educational environment will allow not only to quickly and effectively master modern methods of quantitative analysis of empirical data, but also to develop the digital competencies of participants. The electronic course on the MOODLE platform provides access to video lectures, video cases for solving problems in SPSS, electronic textbooks, tests and other materials

144 hours

### **METHODOLOGY of APPLIED PSYCHOLOGICAL RESEARCH. INTERPRETATION and STATISTICAL METHODS in ANALYSIS of TEXT REALITY**

The program will allow psychologists to get acquainted with the organization of applied psychological research, the right choice and implementation of methods for collecting qualitative and quantitative textual information, interpreting the results obtained and the features of its application in further practical activities

72 hours

### **ACADEMIC COMMUNICATION of the PSYCHOLOGIST: MAIN FORMS of PERFORMING RESULTS of the RESEARCH in ENGLISH**

The program allows you to gain knowledge about the principles of organization and language design of a scientific article, the basic rules for creating a multimedia presentation, as well as the methods of English-Russian and Russian-English translation of special terminology and general scientific vocabulary in the field of psychology
